Cell: +33 6 04 19 13 95

Email: [kwon-young.choi@hotmail.fr](mailto:kwon-young.choi@hotmail.fr)

Age: 21

Country: France

*I'm currently studying in the fifth year of a five-year course master degree in computer science and I am looking for an internship in 2016 (for 5 month starting on February). References available on request.*

## Education

### Brest National School of Engineering (ENIB)

*Brest, France*

European Master Degree in General Engineering - Diploma expected in 2016.

European Master Research Degree in Computer Science - Diploma expected in 2016.

### Lycee Jeanne d'Arc

*Vitre, France*

High school diploma (British A-levels)

## Skills

### Artificial Intelligence

Machine Learning, Modelling knowledge and reasoning, Metaheuristic

### Computer system focused for human interaction

Multi-agent system, Human-machine interface, virtual simulation for biology.

### Engineering

Signal and Image processing, Digital Control System

Preferred language : C++

### Language

French : native

English : fluent. B2 level with 906 point on TOEIC test.

## Hobbies

### Association of Robotics of ENIB (ARENIB)

*2013, 2014*

- The goal of the association is to participate to eurobot cup. The objective is to develop a autonomous wheeled robot that have to perform different actions on a table. Robots of different team face each other during a three minute match.

### Music

- I am an autodidact musician. I've learned to play guitar and piano to an amateur level.

## ***Projects***

### **Millenium Synthesizer**

*2014*

- The Millenium Synthesizer is a project I have contributed in my third year of my studies. This project is a software with the purpose to synthesize, manipulate and have a view of sound and musics.
